

United Way for Greater Austin

A woman with short brown hair and bangs is shown from the chest up. She is wearing a light-colored button-down shirt. Her expression is one of concern or stress. She is holding a pen in her right hand, which is positioned over a piece of paper. On the paper, the words "I'm Close" are written in cursive. The background is slightly blurred, showing what appears to be a home interior.

FINANCIAL STABILITY

DEBT TOOLKIT

INTRODUCTION

United Way for Greater Austin is a local nonprofit providing resources to low-income individuals and families since 1924. At United Way, we give everyone in Austin the chance to be a philanthropist through volunteer opportunities with local charities.

We inspire, lead and unite an eclectic community of philanthropists, including individuals, nonprofits, businesses and government to overcome barriers to economic opportunities and ensure Greater Austin continues to thrive.

This toolkit provides simple, useful information to empower individuals to improve their financial well-being.

This publication was made possible by a grant from the FINRA Investor Education Foundation through a partnership with United Way Worldwide.

The intent of the guide is to assist individuals in making positive choices about their financial well-being. This guide does not purport to be exhaustive, but rather aims to provide basic guidelines. Individuals should consult with a professional for specific advice.

UWATX does not assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, product or process disclosed in these examples. Reference herein to any specific commercial product, process, service by trade name, trademark, manufacturer, or otherwise does not constitute or imply its endorsement, recommendation or favoring by UWATX or any entities thereof.

The views and opinions of the originators expressed herein do not necessarily state or reflect those of UWATX, UWW or FINRA Foundation.

DEBT REDUCTION

TAKE CHARGE!

Today there are Americans at all income levels living paycheck to paycheck. Credit is easier to get, debt is easier to fall into, and not everyone has recovered from the recession.

Is reducing your debt a goal you'd like to achieve? Eliminating it? It takes some time and effort, but it is possible. This guide will connect you with community resources, know-how, and help with the first steps of building a solid plan so you can get on track.

Consumer Rights: No one expects you to pay back all of your debts overnight – if someone tells you this, it is likely that they are violating your rights as a consumer. For example, creditors and collectors are not allowed to call you 24/7 and must respect reasonable hours (before 8AM or after 9PM is considered unacceptable) – harassment and threats are also unacceptable. Read more at FDIC.gov and ConsumerFinance.gov/askcfpb about Consumer Protection Topics.

Good Debt v. Bad Debt¹: Really, it's more accurate to call it "better" and "worse" debt, but there are some general principles to follow. According to Bankrate, "good debt" includes things that have the potential to increase in value like an education, home or business, while "bad debt" includes anything that will decrease in value, like a car and goods bought with credit cards or store credit cards.

TRY IT! Calculate your Debt to Income Ratio (DTI): Take your total monthly debt payments (add mortgage, car payment, installment loans, credit card minimum payments, student loans, and any other regular recurring debt payments) and divide by your gross monthly income.

Example:

Gross monthly income: \$1,000

**Monthly debt: \$300 [car payment of \$250 and credit card minimum payment \$50 = \$300]
300 / 1000 = 0.3, or 30%**

Your DTI is 30%

Straight from a Credit Bureau: Keeping your ratio of debt to available credit as low as possible can usually reflect positively on your credit history and credit score. If you carry a balance of more than 30 percent of your credit limit, lenders may consider it excessive debt and view you less favorably. (Experian)

The Home Buyers' Perspective: Any DTI less than 36 percent is considered workable by most mortgage professionals. If the DTI is higher than 36 percent, it can be difficult to qualify for a mortgage. The lower your DTI, the more you can borrow and the more options you'll have. A DTI of 20 percent or below is considered excellent. (From Zillow.com)

START your action plan to knock out debt:**DIY...**

1. Decide how much money you can use to pay off debt per month and make it part of your monthly budget. If you are only making minimum payments, it's going to take you a long time and cost a lot more in the end.

2. Fill out the table below with your current accounts and amounts owed, then enter it into the website PowerPay²
<https://powerpay.org> OR search for "debt repayment calculator."

Your Turn:

Creditor Name	Balance	Minimum Payment	% Rate
Step One: How much money will you allocate toward debt each month? \$ _____.00			

NOTE: The minimum balance still must be paid on all other accounts.

3. Decide on your strategy for attack.

a. Snowball (sort by balance, small to high): Start paying off your balances smallest to largest –(good if you need results to keep your motivation up).

b. Avalanche (go in order of interest rate, high to low): Since higher interest accounts are costing you significantly more in the long run, the logical individual may want to pay high interest accounts down more aggressively first.

c. The combo! You could pay off your smallest loan first, and then proceed by paying them down most aggressively by interest rate.

4. Continue allocating the same money each month to paying down debt each month, but when you've paid off one, apply that amount to the next one on your list.

5. Stick to your plan and eliminate debt.

² PowerPay is an online tool that demonstrates the difference in interest saved and amount of time spent paying off debts were one to make minimum payments versus making more than minimum payments.

Nonprofits**United Way for Greater Austin**

We inspire, lead and unite an eclectic community of philanthropists including individuals, nonprofits, business and government to overcome barriers to economic opportunities and ensure Greater Austin continues to thrive. We apply in-depth research and strategic thinking to social issues, creating improvements in three main areas: early childhood education, dropout prevention and financial stability. UWATX connects the community with local resources through the 2-1-1 hotline. Call for assistance locating financial empowerment, like financial coaching, credit counseling, free tax preparation services, benefits assistance, financial assistance and more.
