

Parent Feedback

“The program helped me learn that I need to play with my child because before this program I did not know that was important.”

Parent Feedback

“I liked everything about the program, my child's vocabulary has improved, he talks more than before. He also learned how to make friends and be more social.”

Parent Feedback

“I liked how friendly and enthusiastic the facilitators were. I liked that they showed us that kids are leaders and even though they are small, they are capable, strong, and intelligent and they quickly learn new practices and activities. Thank you for the time you took to teach us how to be better parents.”

Parent Feedback

“I'm really happy with the program. I learned a lot with my child. It was important to bring the books home with us. The facilitators were so friendly. They always answered my questions with kindness.”

Parent Feedback

“I enjoyed the program overall, but the thing I liked the most was the opportunity my daughter had of interacting with other children her age. At the beginning she was shy and didn't want to participate in singing, answering questions and playing however at the end she was participating in everything as well as making friends.”

Parent Feedback

“I liked everything because I learned that with basic things I can teach my child. I liked that I learned how to identify with my child.”
